Anemones, 20 bulbs per Pkg.; Ranunculus, 15 bulbs per Pkg.

TUBEROSE,

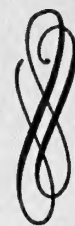

Dwarf Double Pearl

The Dwarf Double Pearl Tuberose produces spikes of waxy white, double flowers, thickly set, and having a permeating sweet fragrance. They should be planted in rich soil after frost danger and given plenty of water during the growing season. They may be started indoors and set out when the weather warms.

DISPLAY RACK

The above pictured display rack for our Clear-Vu Jumbo packages will be furnished upon request on an initial order for 24 dozen or more packages. This order can be split into smaller shipments, but first shipment to include display rack must consist of 12 dozen or more packages. Designed for mass outlets having heavy store traffic, this attractive, all-metal display stands 5 1/2 ft. high, occupies only four square feet of floor space, yet holds up to 16 dozen packages. The three-tier design, each tier revolving separately, permits "shopping" the display from one position. Furnished on loan basis only. This effective display can be used for our spring bulb line, and then for our fall line which overlaps the spring offers, thus providing practically year-round sales and profits. Where store traffic does not warrant the display rack, a simple peg board with hooks also will show off our Clear-Vu Jumbo packages to good advantage and increase bulb sales and profits; materials are obtainable at little cost at building supply dealer.

Colorfully packaged for fast, impulse sales

Each bulb item offered is packaged with a jumbo size (6" x 8") picture label of flower in full natural colors. Complete tested and proved planting directions are printed on every label to avoid explanation and save time for you and the customer. Clear polyethylene bag makes a sturdy, break-proof package yet permits full view of contents. Packages sell on sight. Customers buy again and again. You make a liberal profit on every package.

GLADIOLUS BULBS

*Most Popular and Fastest
Selling of All Flower Bulbs*

Prompt shipments can be made from ample stocks of tested and proved varieties, grown by us the year 'round in large acreages on our North Carolina and Florida farms.

PRICES F. O. B. COCOA, FLORIDA

PRICES PER THOUSAND

SIZES	DIAMETER	1 to 5 THOUSAND	5 THOUSAND & OVER	APPROX. SHIPPING WT. PER 1000
JUMBOS	2" up	\$30.00	\$25.00	120-140 lbs.
No. 1s	1½"-2"	25.00	20.00	80-100 lbs.

SHIPPING DATES: We can make bulk shipments of Gladiolus bulbs the year 'round. Generally, Gladiolus bulbs are planted commencing early in the spring and successively throughout the spring and early summer. In the deep south bulbs are put on sale commencing immediately after Christmas; elsewhere sale commences later, about 30 days prior to earliest spring planting dates. In Florida, South Texas and the Gulf Coast, Gladiolus bulbs can be stocked for sale and planting in summer and early fall for fall and winter blooms. Flowers bloom 60 to 80 days from planting date and can withstand cold but not hard freezes.

MINIMUM ORDER: 1000 bulbs (250 or multiples of 250 per variety). In smaller quantities for counter sales, see assortments offered in our S-U-S Cases.

PACKING: In sturdy shipping containers, gross weight 30-35 lbs. per case, color varieties carefully labelled.

COLOR VARIETIES

Below is a partial list of varieties most generally available from us. To avoid shipping delays, allowances should be made in case of "out of stocks"; substitutions of varieties in colors ordered will be made if necessary, unless instructions to the contrary are received.

ELIZABETH THE QUEEN, Lavender
HARRY HOPKINS, Dark Red
HOPMAN'S GLORY, Yellow
MEMORIAL DAY, Purple
MODERN TIMES, Wine-red

ROSA VAN LIMA, Rose Pink
SPIC & SPAN, Deep Pink
SNOW PRINCESS, White
VALERIA, Soft Scarlet
WHITE GOLD, Deep Cream

COLOR CARDS FURNISHED

for each variety ordered. Colorful window streamers and planting direction circulars also sent with each shipment.

Sales Are Booming in Fancy Leaved Caladiums

ARE YOU GETTING YOUR SHARE OF THESE Bulb Profits?

In just a few years we have seen Fancy-Leaved Caladiums develop from small scale, "back-yard-growing" operations to booming production with plantings now running into the hundreds of acres.

Ten years ago, nine out of ten home gardeners couldn't tell you what a Caladium was. Each year thousands upon thousands are "discovering" this beautiful, long-lasting, most versatile decorative plant of tropical origin, and demand for the bulbs has exceeded production capacity.

You can search far and wide to find another garden or pot-plant subject that provides the beauty, fascination, and lasting qualities of Fancy-Leaved Caladiums. A bed or border of these handsome and interesting foliage plants rival in brilliance a planting of colorful tulips, yet the beauty of Caladiums lasts from spring until frost, and in warmer climates they have lasted as late as December and January.

Through patient and painstaking hybridizing, selection and testing, Caladium growers have produced and are producing a range of colors, patterns and forms that will keep interest in Caladiums at peak level season after season.

We are proud to offer to the trade one of the most complete selections now available in quality bulbs of tested and proved Caladium varieties—old favorites as well as new.

Packaged or Bulk... For Counter Sales or Potting

LOOK TO US FOR YOUR CALADIUM NEEDS

Quality bulbs, true-to-name, proper sizing, good varieties, careful handling and packing, prompt service—these, and not price alone, are the important factors in buying your Caladium bulbs. Over the years, our customers have learned that they can depend upon us to deliver to their entire satisfaction, enabling them to increase their Caladium sales steadily, in line with the growing public awareness of these beautiful foliage plants.

Our sales aids, in the form of attractive, full-color labels, eye-appealing picture packages, window streamers, display boxes, are doing an excellent job in promoting interest, sales volume and profits in Caladiums for the Dealer.

"Shop around" in this catalog and order the package or packages, or the Caladium bulb deal best suited to your requirements. Place your order early!

Fancy-Leaved **CALADIUMS**

The popularity of these fascinating and spectacular foliage plants has grown rapidly in recent years. Now available in a wide selection of interesting color patterns that provide breath-taking beauty in the garden or indoors for several months. The demand for Fancy-Leaved Caladiums is bound to increase as more and more flower and plant lovers discover this most versatile bulb plant.

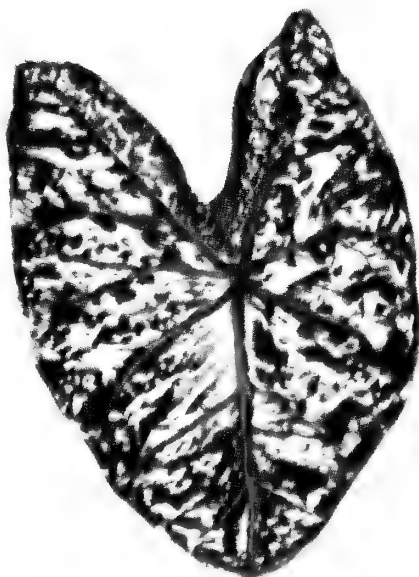

For florist and greenhouse culture, and for counter sales to home gardeners, we offer one of the most complete selections available—proved old favorites and the later varieties. We offer Fancy-Leaved Caladium bulbs in bulk and in attractive picture packages for resale. Order your requirements early and profit on the demand for this popular seller.

FREE COLOR CHART

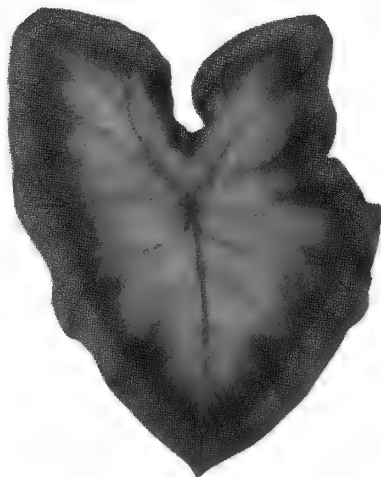

Pictured on these pages are just a few of the Caladium varieties we offer. See opposite page for variety list. Write for our Free Color Chart showing over 50 varieties in color. This chart also contains detailed information on Caladium culture.

CALADIUM VARIETY SELECTION

We have one of the most complete selections available anywhere, in proved varieties of Fancy-Leaved Caladiums. Listed below are varieties in good supply. Early ordering assures best selection. If you do not see below the varieties you want, send for our color chart and complete variety list. It is always best to allow some latitude for substitutions in case of out-of-stocks, to save time, correspondence and disappointment.

ACE OF HEARTS. A good red, low growing.

CANDIDUM. The leading white, compact growth.

CRIMSON WAVE. Vigorous, large leaf variety; crimson with dark green border; transparent.

DR. GROOVER. A good pink, low growing heavy leafer. Very colorful. Recommended for potting.

EDITH MEADE. Low growing, leafy variety with large white center, red midribs, green border.

FANNIE MUNSON. Low growing, with large beautiful pink leaves.

FESTIVIA. Beautiful new red; recommended for outside but also good for potting.

FREIDA HEMPLE. The best, all-purpose, red-hearted Caladium.

ITACAPUS. A leading red; medium heavy leafer, low growing.

JESSIE THAYER. Vigorous growing red, good pot plant.

JOHN PEED. A very fine and popular red variety.

KATHLEEN. A different pink; very low, leafy and tough; excellent for potting.

LORD DERBY. Transparent rose, with dark ribs; low growing.

MACAHYBA. Bronze with green and red rays, large pink and white blotches.

MARIE MOIR. White with red splotches. Medium tall, vigorous.

MISS CHICAGO. Leaves almost solid pink with few light green areas; heavy leafing low grower; good pot plant.

MRS. ARNO NERHLING. Heavy-leaf, low growing, white and pink veins.

MRS. F. SANDERS. Large round leaves, deep rose on dark green; good outside.

MRS. F. M. JOYNER. Colorful Caladium; vigorous and tough; white if grown indoors, copper-red outdoors.

MRS. W. B. HALDERMAN. Medium tall, bushy; light red with narrow green border.

PINK CLOUD. Good grower; crumpled leaf, shaded pink; mottled. Very popular.

POECILE ANGLAIS. Heavy leafing, low growing red.

RED ENSIGN. Low growing, bright metallic red; produces many small leaves; good texture and color.

RED FLARE. Low growing leafy variety that produces an outstanding pot.

RED POLKA. Beautiful red on green. Good pot plant variety.

SCARLET PIMPERNELLE. Scarlet with yellow-green margin; vigorous, low growing; becoming very popular.

SEAGULL. Low growing and very leafy. A good pot plant and a variation in white.

SPANGLED BANNER. A good red, low growing, leafy plant.

THOMAS TOMLINSON. Unusually showy, low growing variety; brilliant red, narrow green margin. Good for potting.

TRIUMPHE DE L'EXPOSITION. Large bright crimson with scarlet ribs on green.

CARE OF TUBERS

Caladium tubers (or bulbs, as they are called) are sensitive to cold. They should never be kept in cold storage. If your bulbs arrive during cold weather, it is important that they be removed from the carton and packing material and spread thinly in trays in a warm location with good air circulation. This handling is desirable at all times.

NAMED VARIETIES

Sizes (Diameter)	Per 100	Per 1000
Mammoths (3 1/2" up)	\$35.00	\$340.00
Jumbos (2 1/2" to 3 1/2")	24.00	230.00

No. 2s (1" to 1 1/2")	8.00	75.00

*No 1 size recommended generally for counter sales. Write for quotations on large lots.

DELIVERY: December until fall.

Our new crop is available for shipment early in December and usually until mid-summer. However, if your order is placed in January, February or early spring, we can hold stock for shipment during the summer and early fall for fall and early winter pot plants.

MINIMUM ORDER: 100 bulbs, 25 or multiples of 25 per variety, 250 or more bulbs priced at the 1000 rate. COLOR CHART FURNISHED FREE. With every bulk shipment we furnish a beautiful color chart, which pictures in full natural colors and describes the most popular Caladium varieties.

CALADIUM CULTURE

The Fancy-Leaved Caladium is a tuberous-rooted herb, at home in tropical forests as found in South America. It naturally grows best in warm temperatures and will not perform satisfactorily below 70 degrees. For outdoor planting, the dormant tubers should be set out when frost danger is past. Set them about 2 inches deep and about 10 inches apart, in a semi-shaded location. The soil should be rich, light and well drained. Ideal would be a mixture of 25% old rotted cow manure, 20% peat moss, 20% sand and 35% good loam. Water sparingly at first to prevent rotting, then water freely when leaves appear but never let the soil become soggy. Caladiums can be started early indoors in flats or pots. When 3 or 4 leaves have developed, transplant outdoors or repot adding heavier soil.

FOR COUNTER SALES

Caladium bulbs in our Serv-Ur-Self Display Cases make an effective self-selling display. These cases contain a balanced assortment of most popular varieties together with the identifying color pictures. See description and prices on our Serv-Ur-Self Cases and also our Caladium picture packages elsewhere in these catalog pages.

REDI-PLANT'D

"Senior"

Fancy-Leaved Caladiums

REDI-PLANT'D "Senior" (Catalog No. RP-3) features an attractive, two-color molded plastic planter, 7" x 4" x 3½" high, with "Hydro-Wick" for sub-irrigation. Three (3) dormant Fancy-Leaved Caladium bulbs, all different but harmonious color varieties, are "Redi-Plant'd" in prepared potting soil in this handsome planter. When water is added, the bulbs quickly sprout and develop into a full-leaved plant of colorful, breath-taking beauty.

REDI-PLANT'D "Senior" is available with Fancy-leaved Caladium bulbs only, in a mixed color assortment of low growing varieties especially suited to this planter. A full color label with simple directions adds the final touch, to make this an amazingly fast-selling, impulse-sale specialty that will make money for you from January to August.

Tuberous Rooted **BEGONIAS** DOUBLE CAMELLIA

Tuberous-Rooted Begonias are fast becoming one of the most popular of summer flowering garden subjects with amateur gardeners in all parts of the country. Their showy blooms in many colors last throughout the summer until frost. As cut flowers they provide spectacular bowl arrangements. They are ideal for pot culture, porch boxes or outdoor bedding. They can be started early in damp peat moss or vermiculite and transplanted to 4 or 5 inch pots as growth starts, or if ground is warm they can be transplanted directly to beds outdoors, in a shady location. Recommended soil preparation: use two parts of good soil and rotted manure, two parts leaf mold or peat moss, one part sand; 3 lbs. bone meal to the bushel of mixture. We stock the most popular type, Double Camellia, in all colors.

DELIVERY: January to April

See standard assortment in our Serv-ur-Self Display Case, Page 2.

GLORIOSA *Rothschildiana* ORANGE-SCARLET CLIMBING LILY

Also known as the Glory Lily, the Gloriosa Rothschildiana tuber produces a climbing plant which grows rapidly four to six feet tall, requiring trellis support. From 10 to 30 blooms of brilliant scarlet and yellow develop from a single tuber. The plant thrives in southern gardens but is also grown in the North in greenhouses, and outdoors in warm locations during summer months.

The tubers should be planted in a bed of rich soil. Lay the tuber on its side with the sprout end about two inches under the soil and the more slender end somewhat deeper. The plant will grow in full sun or semi-shade.

DELIVERY. Year Round

Giant Hybrid Meade Strain

AMERICAN-GROWN

AMARYLLIS

The American-grown Meade Strain of Amaryllis (*Hippeastrum*) makes gorgeous giant blooms in colors ranging from near white (with pencil striping) through various shades of pink to deepest reds and candy stripes. They are used extensively in the South for outdoor planting and they are popular bulbs in the North for indoor growing in pots. For indoor flowering, the bulbs should be potted in a mixture of fibrous loam, leafmold and sand, with liquid manure applied during the blooming period. They may be potted as soon as available, with the shoulder of the bulb protruding from the soil. If kept at a fairly even temperature of 65° F. they will develop a good vigorous root system. When the weather warms and after blooming, the potted plant can be placed in the soil outdoors and taken in again in the fall for flowering indoors. In mild climates bulbs may be kept outdoors in the ground from season to season; elsewhere they must be lifted and stored in dry sand through the winter.

Imported Royal Dutch

AMARYLLIS

Widely publicized in the flower magazines and general publications, the new, improved Dutch Hybrid Amaryllis (*Hippeastrum*) are in good demand. For their mammoth, majestic blooms, up to 8" across, and superb color and form, they easily justify the premium prices which they command. The mammoth size bulbs which we import, measuring full 3¼"-3½" in diameter, make several blooms to the stem and usually two stems per bulb. They make a truly sensational pot plant and the blooms are long lasting. Available in named color varieties as listed below.

DELIVERY: November to March
